### Background

- Dr Michele Lee Sook Ling is an obstetrician and gynaecologist with a special interest in fertility treatment and fertility enhancing surgery. She is an accredited fertility IVF specialist and performs her in vitro fertilisation (IVF) procedures at the Mount Elizabeth Fertility Centre at Mount Elizabeth Hospital, Singapore.
- After spending more than 10 years in government restructured hospitals, Dr Lee went into private practice in 2008. She was active in enhancing clinical practice, performing IVF programmes and surgery for fertility treatments. Dr Lee's sincere and friendly approach is appreciated by her patients, who firmly believe in her.
- Being a registered colposcopist, Dr Michele Lee also performs colposcopy for abnormal pap smears in her clinic, which has a treatment room catering for minor gynaecological procedures and colposcopy examination.
- Dr Michele Lee keeps herself updated by actively participating in related local and international medical conferences. She also enjoys attending workshops where there are hand-on sessions, case discussions and interaction with other fertility specialists.
- She is a member of the Royal College of Obstetricians and Gynaecologists of London, UK, the Obstetrics and Gynaecology Society of Singapore, and the Society for Colposcopy and Cervical Pathology of Singapore.
