WARD 3C

Formerly known as Day Ward

Our newly upgraded Day Ward is now seamlessly connected to our Major Operating Theatre (MOT), with the Day Surgery Operating Theatre (DSOT) subsumed within MOT, creating a single, cohesive space that enhances patient care and workflow efficiency. This facility is now part of our fully redesigned intensive care footprint on Level 3, which includes the ICUs, Neonatal ICU, and Delivery Suites.

Effective 4 August 2025, the administration of Electroconvulsive Therapy (ECT) and Spravato will be moved to Ward 3C.

For All Day Surgery Admissions:

- Registration will take place at the Level 2 Admission Office.
- Patients should proceed to Ward 3C using Patient Lift Lobby B, traveling from Level 2 to Level 3 until Visitor Lift Lobby B (access between Level 2 to 10) is available in November 2025.
- Patient discharge and payments will be handled directly within Ward 3C at Peony Lounge.

(Phase 2) – Maternity Ward

Our new Maternity Ward is now purposefully configured for maternity care with a fully equipped nursery that oversees into the future Heritage Garden. Imagine new parents looking at their newborns with the garden as the backdrop! This ward also features the return of Daffodil Suite which is a mirror of the Magnolia Suite.
